RESOURCES

These resources are useful in learning more about the subjects critical to holding a successful GOOD Guys Event, such as recognizing implicit bias, engaging men as agents of change, and addressing inequalities in the legal industry and workplace. The publications provide important research and information in these areas, the initiatives and training serve as good examples of programs already working to support diversity efforts, and the presentations can be used as inspiration for speaker presentations at your own GOOD Guys Event. For more considerations regarding the best format for your GOOD Guys Event, refer to the Programming Guide in the Toolkit.
